Diagnostic Solutions

Hematology Reagents

Full line of dedicated reagents for automated cell-counters

- Cyanide-free
- 4 years shelf life*
- Compatible with original

**selected products*

www.normadiagnostika.com

Norma develops, manufactures and markets a complete range of dedicated reagent sets for 3-part and 5-part differential hematology analyzers. Our generic hematology reagents reach the level of quality, stability and shelf life of the original reagents, supplied by the instrument's manufacturer. They deliver good performance and the same accurate results.

Norma hematology reagents are manufactured in an ISO 13485 certified facility, they are CE marked and meet the requirements of the IVD Directive 98/97/EC.

Norma offers dedicated reagents for the following cell-counter brands:

- Abbott
- ABX, Horiba
- Orphée
- Sysmex, TOA Sysmex
- Mindray
- Siemens, Bayer
- Coulter, Beckman Coulter
- Nihon Kohden
